

The AQNEURSA Cares Team is ready to help assist patients with gaining access to AQNEURSA™ (levacetylleucine)

Sending a complete enrollment packet, including the [Patient Enrollment Form](#) (available at www.aqneursa.com) to AQNEURSA Cares allows the team to initiate the following patient services:

Verify insurance coverage for AQNEURSA

Determine eligibility for co-pay assistance

Help support the prior authorization (PA) process

Conduct patient outreach and schedule medication shipments direct to the patient/caregiver

Once the enrollment packet has been received by the AQNEURSA Cares team, a representative will contact the patient to set expectations and help them through each prescription fill.

See additional details for each step on page 2.

Questions? Call 1-866-200-0419 Monday-Friday, 8:30 am to 8 pm ET, for assistance in coordinating patient access to treatment

AQNEURSA Cares: A Closer Look

Learn more about each step in the fulfillment process for AQNEURSA.

*Patients who participate in Medicaid, Medicare, or any other federal healthcare program are not eligible to receive co-pay assistance.

†Please note, restrictions and maximum benefits apply to the co-pay assistance program. For more information, call 1-866-200-0419. IntraBio may modify these maximums or discontinue the program at any time. In this case, any change to what commercial patients are required to pay will be communicated to patients by the specialty pharmacy. The actual amount patients have to pay will vary depending upon these maximums and their insurance benefit.

AQNEURSA Cares may follow up with your office regarding:

**Insurance updates as needed | Expiring PAs
Patient medication compliance and adherence | Refill requests**

Questions? Call **1-866-200-0419** Monday-Friday, 8:30 am to 8 pm ET, for assistance in coordinating patient access to treatment
